## WELCOME

We believe that weddings are a social celebration of a very sacred commitment. We feel honored to be participants in every wedding we shoot and treat both the day and the people involved with the highest level of integrity, creativity, respect for all cultures and religious background. Most of all, weddings are a day filled with beauty and magic that emerges effortlessly. We believe our job is to capture that magic in the most authentic way - unobtrusively, honestly, joyfully.

We are a cutting edge photography studio, offering the most recent advances in the photography field. We are always well versed in the latest wedding trends and bride preferences. Our approach is artistic, romantic and heartfelt always in the best of taste. We strive for the perfect combination of portraits and documentary style with timeless elegance.

Our focus is on relationships and all elements that brings people together. Our mission is to honor photography as an art form and try to highlight the laughter, tears, and passion that you and your guests will be feeling. We understand that each person is unique in their style, personality, and biography and strive to produce images that reflect that soulful beauty of every individuality. We understand our client needs for exclusive, classic products and exceed their expectations. We represent the grace, distinction, and style that is possible in wedding and portrait photography.  
Love is all around!

### **DESTINATION COVERAGE.....700**

- other Island outside of the Honolulu area
- in addition to collection 1, 2, or 3 coverage

## FREQUENTLY ASKED QUESTIONS

### **How would you describe your style?**

Our style is really a hybrid. We have so many inspirations that come from so many different places and try to implement them in our images. We love the raw emotion of spontaneous expressions and the seductive, mysterious look of fashion photography. In short, our style is something we like to call artistic, romantic, heartfelt. Lighting, composition, interaction and choosing locations very carefully makes an image. As far as our photojournalistic side-we never interrupt a moment. We never pose situations that are already so magical on their own. We are an observer most of the time. Our methods combine photojournalistic unobtrusiveness with a playful sense of leadership. The result is an eclectic blend of lifestyle images that are remarkably stunning as well as natural.

### **We love your style but would love to have some classic portraiture. Is this something you do?**

We do classic portraiture at most of our weddings and portraits. Even the most modern brides still want the heirlooms that family portraiture creates. It's important to reserve time for portrait creation.

### **Do you shoot with film or digital?**

We are 100 percent digital. The creative latitude that digital gives is beyond compare. When we shoot, we not only shoot for the moment, but have a clear vision of what the finished image will look like. By shooting digitally, the possibilities are limitless! And yes, the quality of digital is as good as film - usually better.

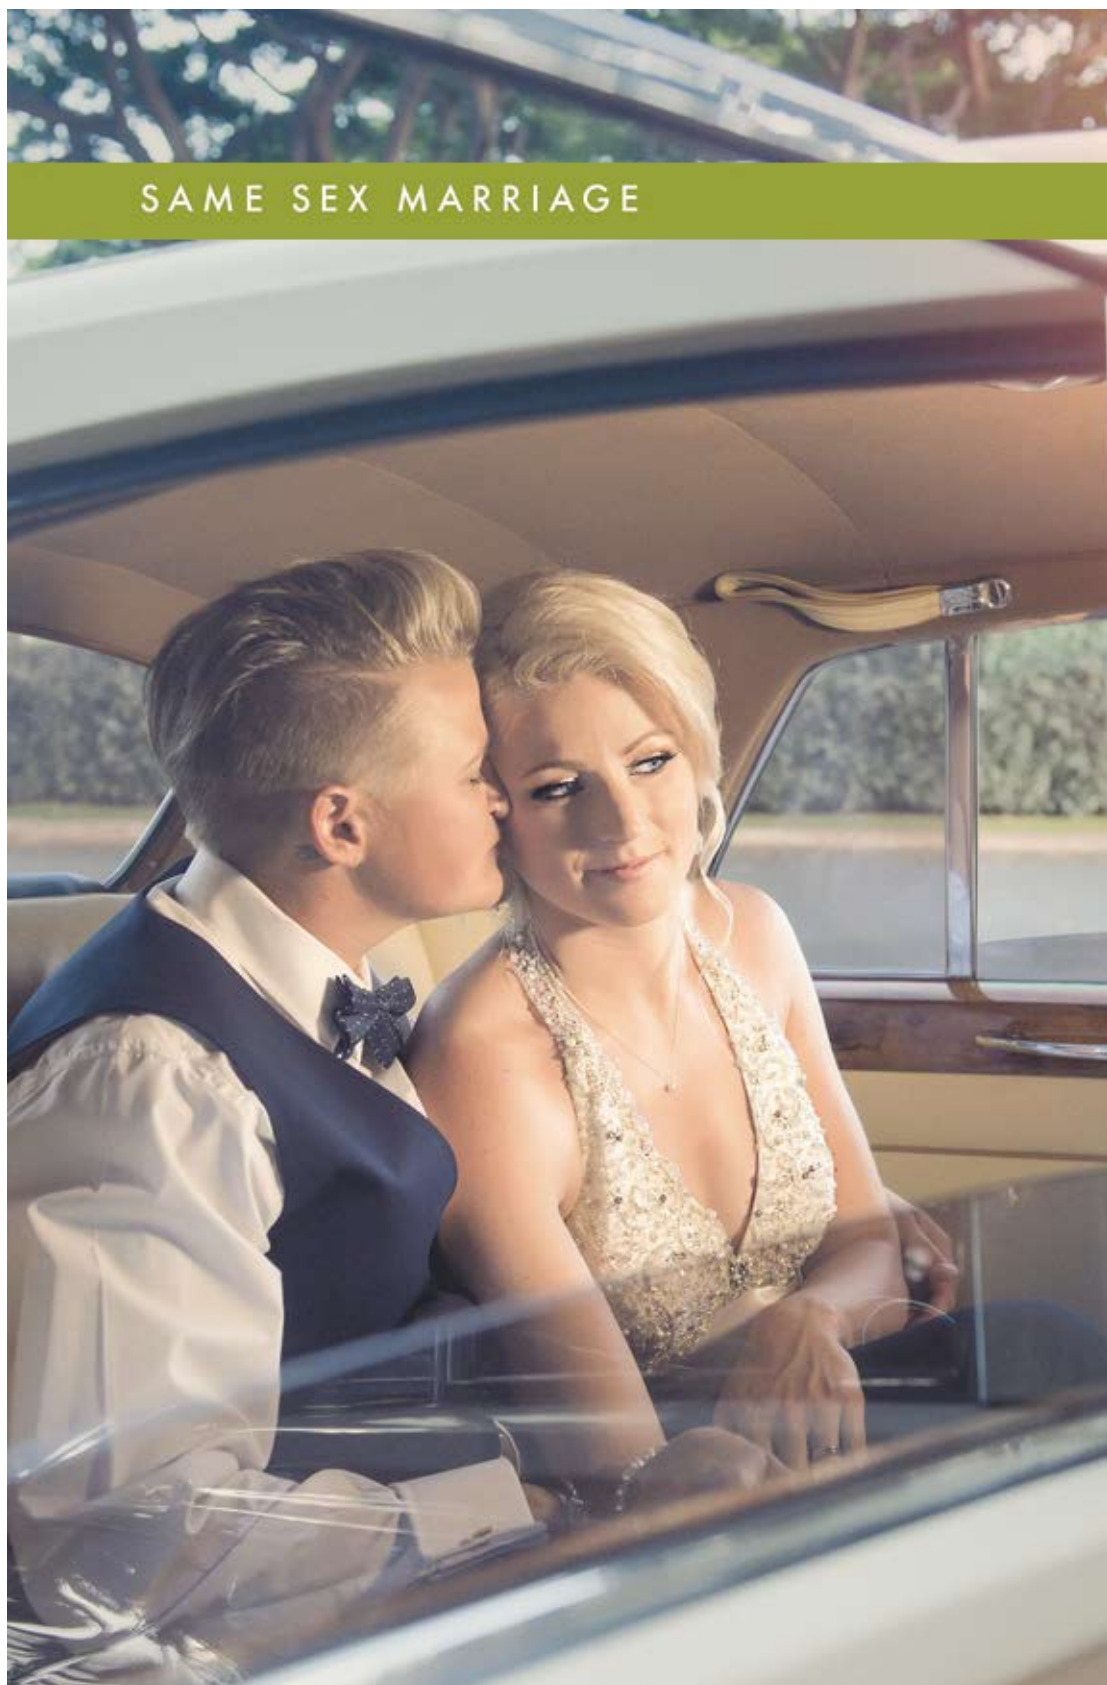

### **I'm having a religious ceremony. Are you familiar with the events that will take place?**

We welcome and respect differences and diversity from cultures and religious background. We have been blessed to have photographed many, many different types of weddings. We've documented Catholic, Greek, Jewish, Hindu, Episcopalian, Non-denominational Christian, Buddhist and Lebanese-Catholic ceremonies. If you are having a wedding that is not listed here we would absolutely love to learn all about the customs and events.

SAME SEX MARRIAGE

## RAVES

I can't tell you how much Mike and I LOVE the photos!!! I couldn't be happier with the way they turned out. It is going to be tough to pick, but you have done a fabulous job of helping us by putting together the sample album. This is such a huge help and you picked VERY well, we think that we won't have to make very many edits. Thank you so very much for being our photographer!! I can't imagine anyone else taking such amazing photo's and really capturing the day. It was so fun also to see what I missed, you really nailed it for us.

*Dawn + Michael  
Fishers, Indiana*

When planning my wedding, I knew that I wanted to have the best possible photography experience. As an artist, capturing photographs of our special day was an essential part of the wedding. When at the bridal expo, I met Marcia. I immediately knew that she was who I wanted for our photographer. She was personable, lively, and passionate about her work. When looking through her work, she had a special touch; all her pictures seemed to capture each couple based on their personalities and dynamics. She also loved capturing motion and candid moments. To get a sense of her chemistry with us, we scheduled an engagement photo session with her. As expected, she was fantastic and experimental. The final products turned out great, after receiving our photos, we picked a few to turn into an album. From there, she edited it even further! This really got us excited for our wedding day. Marcia did not let us down on our wedding day. She lived up to everything we expected and more!

*Shannon + Ethan  
Honolulu, Hawaii*

Marcia is so amazing. She went above and beyond to help us out with a surprise wedding engagement for me son and future daughter in law. We also combined it a family shoot. She is extremely professional and a ton of fun. Made this a memory we won't ever forget. The photos are beautiful. She takes her Kraft very seriously and is very good at what she does. Thank you from the bottom of our hearts for making this an amazing experience.
